

Prophets in the Bible

The list below shows the name of the prophet, in alphabetical order, and the first Bible verse in which they are referred to as being a prophet. For Isaac, Job and Peter in the "First Appearance" column, you'll see an asterisk after their Bible verses. These three prophets were not explicitly identified as prophets, but these Bible verses show examples of prophecies that these Biblical figures received.

The chart also shows the testament era in which the prophet lived.
