

Dear brother Greg and brethren at Kalispell,

Good morning brother Greg, hope you and sister Paula are doing well in spite of Covid 19 Pandemic disease. We are fine here at Pampanga, but there is an old sister who has died of the disease and another 4 brethren in the North also reportedly died. On the other hand, here in our area at Pampanga there are 22 persons who were already positive at this time besides the PUI and PUM are increasing which causes an extension of total lockdown until May 15th. Our brethren here in Betis, San Roque and Arayat Pampanga were so much affected and subjected to famine. The only good thing is that no brethren are infected or contaminated at this present time, but we are still continuing to battle this deadly virus. Almost all of our brethren lost their jobs due to lockdown; besides the problem of their monthly bills to be minded to pay this causes a great famine. The Government Aid is not dependable, and besides the relief food only lasts 2 to 3 days.

Hope and pray that those whom you know our brothers or sisters there could afford some for food as the basic needs and through your great assistance to relay our plea. Again brother Greg, thank you for your assistance with this needs, stay safe brother Greg and sis Paula and praying your whole loving family wherever they are, and specially the grand kids hoping they are fine and safe too. We are able to worship in our home in online preaching with the brethren watching in 3 congregations every Sunday. Thank you and God bless.

Brotherly
Jojo and family & brethren
