

Dear Brethren,

Greetings in the holy name of our Lord and Savior Jesus Christ.

Hoping and praying that this email will reach you all are in good health as we continue serving the Lord. My family and I are also doing well. We are experience much rain the previous days just because of the Tropical Storm Ramon. We are thankful to God that we are not totally affected in our area.

Sending you some pictures during our home bible study. We thankful to the brethren who opens their doors where we conduct our every Friday home bible study. Every member of the church we have the schedule of bible study in their house in which they have this opportunity to invite their relatives and friends to listen and observe in our study. It is also the opportunity to preach specially to the member of the family which is not yet a Christian.

The church I am serving here at Taytay is also fine. Attached also our pictures. The members here are strong and unmovable to the faith in spite of the hardship in life we are experiencing due to continues inflation of primary goods. Our radio program is also fine. We are thankful that these programs continue using us to spread the Gospel as best as we can.

Attached also my current picture, me and wife.

With regards to my schedule of preaching to the local church at Santiago City Isabela is also fine. We continue our home bible study every member to the church in their house. Maybe we finish these schedules in the midst of December 2019. We have also visitors attending in our worship in which we are continuing teaching them the Plan of Salvation.

Till next mail again.

May God bless us all.

Your brother in Christ,
Sammy C. Medrano
