

Efren Algaba Report on August 2024

Greetings in the name of Lord Jesus Christ.

As to my work this month, still zero baptisms. I'm very sorry, my brother. But my health has improved due to proper foods, medications, and exercises. Because I'm feeling better now, I took advantage of it to preach to the people I met and to visit the sympathizers near us. The wife of Richard Umali is ready for baptism, but Richard is always busy and has gone to another town for his job as a carpenter. His wife is just waiting for his return. In fact, I have her photo while I'm preaching to her. The rich businessman, who deals in rice and is African, also heard me and liked my preaching. He is a Catholic, just because of his Filipino wife. He asked me to return, but it has been three times already that I've gone there, and he's never there; he's always busy with other business, according to his vendors.

I also met a policeman in the auto repair shop. I explained to him about the one true church in the New Testament. He was so glad and invited me to their police station in Santa Cruz, but I know that my feet are not suited for a long-standing position and it's not good for my health. His house is in Majayjay, far from Santa Cruz. As to the three men, they heard the gospel but were obviously not interested. As for the brother in Sariaya, brother Nobe confirmed that he will return to Makiling Calamba this coming September 4 for business matters. His wife and three children are there, but his grandson remains in Sariaya for his high school education. I instructed him about the church in Turbina. My son, Godsent, is the preacher. On the other hand, Rolly and his wife, the toxic woman in Sariaya, was totally disfellowship because they are not a good example — a lamp without light, salt without flavor. I have been with them a long time, but my problem is with the others, the young ones. Brother Nobe is my hope to guide them.

As to my other plan, Brother Chito Perez, my friend and a mature Christian, called me in messenger about his proposal to propagate the one true church and the truth through social media. He wants to use YouTube. He trusts in my little ability for preaching and for questions and answers. He will pay for my program, and my son, Godsent, will join me. He will support me in my ventures. I know that he can do it. He and his family dwell in Canada, and all his children are professionals. Because of his ardent love for God, he never forgets the Lord and continues to serve Him.

As to our weather right now, it's the second day of heavy rain with no electricity. Maybe tonight or tomorrow the electricity service will return, Lord's will. By the end of the year, our plan for widespread preaching will happen. I'm eager to use my little knowledge and experience in preaching and debating.

I know that the opponent is very hard to convert, but the readers and listeners who are hungry for truth may possibly convert them. Out of my 37 debates, 2 were converted into it, one from Alcate and other one in Daet, but some listeners were also converted.

Thank you very much, my beloved brother and brethren. You are all kept in my prayers for good health and healthy mind.

In Christ,

Efren
